NEWARK PUBLIC SAFETY COLLABORATIVE

Focus on Places

Data-informed people craft ways in which they can share the burden of crime prevention at places needing it most.

Maximize Existing Resources

Form new interventions and improve ongoing projects

Join Forces

Enhance public safety and community-wellness in sustainable and transparent ways.

PREVENT CRIME

Deliberate and impactful responses to crime problems without a primary focus on law enforcement.

Be Data-Informed

Accessible data and analytics empower local change agents to do what they do best even better.

Ask Why

Risk Terrain Modeling (RTM) diagnoses environmental conditions that lead to crime.
